

Product Benefits

Crop-specific bacteria

- ✓ Specific formula for corn silage
- ✓ Produces more organic acids
- ✓ Drops the pH faster
- ✓ Out competes spoilage organisms

Water soluble formula

- ✓ Goes to work faster
- ✓ Improves application
- ✓ Delivers more live bacteria to the crop

Research proven

- ✓ Laboratory trials
- ✓ On farm research

Convenient to handle and store

Inoculant Benefits

- ✓ Reduce Dry Matter loss
- ✓ Faster fermentation
- ✓ Increased lactic acid
- ✓ More energy
- ✓ Increased dry matter intake and feed efficiency
- ✓ More milk
- ✓ Longer bunk life
- ✓ Less wasted feed

What makes WSC Different?

Bacillus subtilis and *Aspergillus niger*:

- Enzymes convert plant fiber and starches into simple sugars
- Provides substrate for Lactic Acid Bacteria to utilize as energy

Pediococcus strains:

- Initiates fermentation
- Works at a high pH range

Lactobacillus strains:

- Completes fermentation
- Produces large amounts of lactic acid under low pH conditions

Packaging & Application

Pro-Store WSC is available in different package sizes to accommodate a variety of operation sizes.

- **50 ton treatment package**

- *200 grams (4 grams/ton)
- *27.3 billion total cfu/gram
- *120,000 cfu/gram of forage
- *Foiled lined & heat sealed package

- **250 ton treatment package**

- *250 grams (1 gram/ton)
- *90.8 billion total cfu/gram
- *120,000 cfu/gram of forage
- *Foiled lined & heat sealed package

- **500 ton treatment package**

- *500 grams (1 gram/ton)
- *90.8 billion total cfu/gram
- *120,000 cfu/gram of forage
- *Plastic canister w/measuring cap

-ProStore WS Organic is available for use in organic crop production!
