

PRO-STORE WS

Pro-Store WS

For use on all high moisture forages

Inoculant Benefits

- ✓ Reduce Dry Matter loss
- ✓ Faster fermentation
- ✓ Increased lactic acid
- ✓ More energy
- ✓ More milk
- ✓ Increased dry matter intake and feed efficiency
- ✓ Longer bunk life

"Since switching to ANC's Pro-Store WS, the cows are cleaning up the feed bunk better than they ever have! When we made the switch from dry granular to water soluble, application has become much easier and more consistent on the crops."

- Ron Lawfer,
Kent, IL

"Pro-Store works! We've used many different products, but Pro-Store works quicker than any other products...it makes better silage!"

- Sidney Nolt,
Richland, PA

What makes WS Different?

Bacillus subtilis and *Aspergillus niger*:

- Enzymes convert plant fiber and starches into simple sugars
- Provides substrate for Lactic Acid Bacteria to utilize as energy

Pediococcus strains:

- Initiate fermentation
- Work at a high pH range

Streptococcus strains:

- Prepare the way for *Lactobacillus* strains
- Reduce pH in first 10 hours

Lactobacillus strains:

- Complete fermentation
- Produce large amounts of lactic acid under low pH conditions

Packaging & Application

Pro-Store WS is available in different package sizes to accommodate a variety of operation sizes. Pro-Store WS+ is also available for use in organic crop production!

- 50 ton treatment package

- *200 grams (4 grams/ton)
- *35 billion total cfu/gram
- *150,000 cfu/gram of forage
- *Foiled lined & heat sealed package

-500 ton treatment package

- *500 grams (1 gram/ton)
- *137 billion total cfu/gram
- *150,000 cfu/gram of forage
- *Plastic canister w/measuring cap
